

Marker policy

DEFINITIONS:

Single Grave: One Plot in cemetery. Typically, would have one full body burial.

Companion Grave: Two full body burials in the same grave with a stacked orientation.

Cremation Grave: Cremains buried. (Up to 5 cremations in one grave, including full burial lots)

District: Shall mean the Winton Cemetery District.

Marker: used here as any headstone, monument, plaque or other item used to mark the location of an interment in the Cemetery, and shall include flat, slant, upright and monument grave markers, as well as any plaque affixed to any niche, or elsewhere.

Monument Die: The top of an upright monument which typically sits on a base. (Family should contact a reputable monument dealer for placement.)

Monument Base: The bottom portion of the monument on which the die is normally placed.

Memorial: Also known as monument, headstone, flush or flat marker, must be made of high-quality granite, marble or U.S. Standard Bronze. Height of monument must be in proportion to the width except where grave marker is flush with ground or otherwise noted.

Important: Owner of gravesite is responsible for Marker Policy compliance. Memorial marker or monument will not be allowed to be placed in the Winton Cemetery District if it does not meet compliance. Please ask cemetery management if you are unsure as to the requirements before you order.

** All markers or monuments approved or placed before 4/8/2019 have been grandfathered in. **

** All markers or monuments that do not meet our regulations will be removed**

Marker policy

1. Anyone ordering a marker or monument shall personally check with District Personnel for rules and regulations for each section and type of burial before ordering a stone, marker, or monument.
2. All upright stones, bases, markers, or monuments will be set by the monument company where the marker was purchased from, excludes our flat sections.
3. The District will pour the cement slab. Each cement slab will have two flower cups unless stated otherwise.
4. All marker companies will have to provide the District a proof with dimensions, sketch or picture, and any marker information to get our approval. They can email or fax it to us; we will send our approval or changes, back to them within 5 business days. No marker will be accepted if the marker company has not previously sent us a proof for approval.
5. Any incorrectly inscribed marker is the responsibility of the family and not the district.
6. All markers delivered to the cemetery must be checked in by the office staff before unloading to ensure its condition. In no circumstance may any markers of any kind be left on the property of the District without cemetery written acceptance.
7. If District personnel is needed to assist the seller in installation of said marker or monument, the district personnel shall not be held liable or responsible for any loss, breakage, or damage to said items.
8. All work shall be accomplished according to the schedule adopted by the District. Headstones shall not be set during weekends and or holidays without prior approval to ensure the markers are set in the right location.

Marker policy

9. Written authorization from the family shall be required on any removal of markers. You may contact the District for additional information.
10. The person with Interment rights has the rights to set a marker and direct inscriptions. Unless written authorization is given to someone else, and on file with our records.
11. A bronze plaque (8x10" is required to identify a cremation added to an existing burial where the marker cannot be modified with an engraving. This plaque will be placed on the cement foundation below the marker to identify the addition to the gravesite.
12. All upright markers shall be installed using pins to attach the die and base. **No exceptions.**
13. The District permits markers only if they are made of solid granite or bronze. Markers made of marble are permitted only for **Veteran's** within the District.
14. Every in-ground interment will be designated a rock number until the permanent marker has been installed.
15. Once installed, the district will not be held responsible for any loss, breakage or damage to any stones, markers, monuments, niche plates, bases, benches, vases or other objects.
